Those Tassels on the boots

Brother

It was at a fancy Ball
I met my charmed fair
Midst waltzing Belles and dashing swells,
The prettiest dancer there
I watched her while the music played
The latest Waltz of cootes
And fell in love, no, not with her,
With the tassels on her boots

I

Yes, through those little peep holes in the pretty white petticoats I could plainly see. chorus

I watched her up the stairs
Where we to supper went
Upon those tassels on the boots
My soul was so intent
They asked to propose a toast
Said I heres one that suits
So fill your glasses up and drink
To the tassels on the boots

meant to drink the ladies health but I could think of nothing but those tassels on the boots

I asked this girl, if I
Might call; she said, "you may
But tell me why you gaze upon
The ground in such a way
You're sad perhaps, for life is full
Of very bitter fruits"
Oh no, I said, "I am looking at
Those tassels on your boots

What is a more lovely sight when you walk down Regent street than to look at

chorus

Those tassels on the Boots
A style I am sure that suits
Our English girls with hair in curls
And tassels on their boots

Home Rule for Ireland Evermore

'Tis many years ago, in Ireland you must know
Since happiness sat down upon the land
Her sons they once were free, the star of liberty
Shone gloriously on every Irishman
But let us bar the door on the days that are no more
There is a light beaming over us from afar
But O'Connel he did say before he passed away
Home rule for Ireland Evermore, chorus

In London they can boast our parliament is lost
But yet they say we never should complain
Would you have but hearts be light, when we know this very day
Our countryman are rushing over the main
And Gladstone he may save our country to save
His voice it should be heard from shore to shore
But O'Connel he did say before he passed away
Home rule for Ireland Ever more, chorus

There is a laurel for the brow of one that striving now
To bring our legislature back again
Grattan was his name may heaven be his gain
Energies for Ireland did bestow
Once he never gave his people to enslave
Drive them to a strange and distant shore
Let the flowerets ever wave upon the Heros graves
Home rule for Ireland Evermore, chorus

There is one now in his grave who struggled hard to save
His country from Oppression long ago
Parnell ever bold, his miseries enfold
Hoped for Irish will maintain
Let it be let us all unite, and drink this toast to night
May happiness revisit Erin shore
Like the plan of Isaac Butt, from the hall to the Hut
Home Rule for Ireland Evermore, chorus

What will you do, Love

What will you do, love, when I am going
With white sails flowing - the seas beyond
What will you do, love, when waves divide us
And friends may chide us for being fond.
Though waves divides us, and friends be chiding
In faith abiding I'll still be true
And I'll pray for thee on the stormy ocean
With deep devotion - thats what I'll do

What will you do, love if distant tidings
Thy fond confidings, should undermine
Ah'd I abiding neath sulty skies
Should think other eyes are as bright as thine
Oh name if not tho' guilt and shame
Were on thy name, I'd still be true:
But that heart of thine, should another share it
I could not bear it - what would I do?

What would yo do, love when home returning
With hopes high burning, with wealth for you
If my bark that bounded over foreign foam
Should be lost near home, ah what would you do
So thou wert spared, I'd bliss the morrow
In want and sorrow, that left me you
And I'd welcome thee from the wasting billow
Thy heart my pillow - that what I'd do

Shabby Genteel

We have heard it assorted a dozen times over
That a man may be happy in rags
That a prince is no more in his carriage and four
Than a pauper who tramps on the flags
As I chance to be neither I cannot describe
How a prince or a pauper may feel
I belong to that highly respectable tribe
Which is known as the Shabby genteel.. Chorus

I am a party, in fact who has known better days
But their glory is faded and gone
I have started in life in a lot of odd ways
But have not found the way to get on
There are only three roads I'm afraid that are left
I shall have to beg, borrow or steal
Yet I dont quite encourage that notion of theft
Though I'm awfully shabby genteel, chorus

I am dressed in my best though I cannot paetend
That my costume is quite comyne il faut
You'll observe that my watch has been left with a friend
And my gloves are unfitted for show
There are traces of wear on my elbows and knees
And my boots are run down at the heel
But its cruel to criticise matters like these
When a man has grown shabby genteel. chorus

Still I strive to be cheerful in all my distress
And I bear my bad luck like a man
If I cant have my way as to feeding or dress
I must still do the best that I can
And remember good people, that fortune some day
By a turn of her treacherous wheel
May reduced one of you in the very same way
To the level of Shabby genteel

chorus
To proud to beg to honest to steal
I know what it is to be wanting a meal
My rags and tatters I try to conceal
Because I belong to the shabby genteel

Jack Yarn

Twas one monday night, the moon was shining bright
The wind had been a blowing all the day;
We were sitting in a ring and lor' how we did sing
Ifyou'd have heard us across the bay
We'd sung old black eyed Sue who was so fond and true
When we heard a sort a splashing in the sea
And a nigger the we spied scrambling up the Starboard side

My Darling Clementine

(1) In th

The English Exile

(1) I've oft seen thee smiling dear Mother
Thy loving face beaming with joy
Then why are you weeping dear mother
Be not silent but answer your boy
For its hard to be leaving Old England
And worse than privations to see
But I freely would leave it Dear Mother
If I could carry thy Blessing with me
chorus Then give me thy Blessing Dear Mother
Weep not O Weep not for me
Though stormy clouds hover o'er England
There is fortune across the blue sea

(2) In the cold winter's night Dearest Mother
Our cottage all thatched with snow
Could I see thee for food be grieving
Despised by all that we know
There's the Squire not a pace from our dwelling
& Counting his wealth by the score
Dare you ask but one stick from his dwelling
He would send you to Gaol ever more
chorus

(3) Could I see my Dear sister repining
Sick cold on a pallet of straw
Unable to give her a succour
To keep her from death's craving door
Oh no I would rather be leaving
For Africa's far distant shore
So farewell to those that are grieving
And Old England Good bye ever more chorus

(4) Farewell to the shores of Old England
Farewell to its heroes so brave
There the boast of an Englishman freedom
And the first that would make you a slave
Your liberty's proved you a tyrant
Your dockyards has proved you are free
Taking the food from your wives and children
And transport them across the blue sea chorus

The last days of June 1841

My love and I.

A little while my love and I.
Before the crowning of the day
Twined daisy wreaths and cowslip balls
And carolled lays and sparkled
Before the day, beneath the may
My love (who loved me then) and I.

For long years my love and I
Tread severed paths to varied ends
We sometimes meet, and sometimes say
The trivial things of every day
And greet as comrades, nods as friends
My love (who loved me once) and I.

But never more my love and I.
Will wander forth, as once together
Or sing the songs, we used to sing
In spring time, in the cloudless weather
Some chord is mute that used to sing
Some word forgot we used to say
Among the way, before the day
My love (who loved me not) and I.

The blushes from her warm cheeks fled
'Tis getting rather chilly
She with a timorous quiver said
She looked pale as a lily

He quickly looked, and then did see
No cozy cashmere bound her
And so he very guiltily did something put around
The which produced the desired effect

Longshoremans strike, or the poor mans Family

Oh I am a simple laboring man
I work along the shore
To keep the hungry wolves away
From the poor lonesome door
I toil all day in the broiling sun
On the ships that come from sea
From broad daylight till late at night
For a poor mans family.

Oh the rich ones gilded carriages
And horses swift and strong
When a poor man asks for a bite to eat
They tell him he is wrong
Go take your shovel in your hand
Go out and work for me
If so or live they have nothing to give
For a poor mans family

They bring over their Dutchmen
And chinamen from the south
Thinking they can do our work
Take the bread from out of our mouths
The white mans children they must starve
If we will not agree
To be thrown like a worm in the ground
And starve our family

Now, give us fair pay for every day
It is what we ask of ye
Our cause is right I tell
We are out on a strike
For a poor mans family

Bygone Days.

1. They praise the ways of latter days
and cavil at the past
They say the reign of prejudice
will leave the world at last
And they laugh at me because they
I prize what they forget
And view old customs passed away
with feelings of regrets
Their eyes may prize Italian skies
The land of song and dance
And some may lavish wealth, among
the gay saloons of France
In the Halls where my forefathers dwelt
I'd rather live and die
But that's a good old fashion
of the days gone by

(2) Some seem to deem a loyal thing
Absurd and obsolete
The laws which were our fathers Boast
They'd spurn beneath their feet
I venerate the brave who fought
To guard those ancient laws
And still I'm not ashamed to own
I love the good old cause
'Tis true the view of all things new
May charm yet is it strange
I love old feelings, dreading still
This longing after change
B for my country and my faith
Right gladly would I die
Oh say not 'tis a fashion
Of the days gone by.

Far away

(1) Where is now the happy party
I remember long ago
Sitting by the Christmas fire
Brightened by its ruddy glow
Or in summer's balmy evening
In the fields upon the hay
They have all dispersed and wandered
Far away, Far away,

(2) Some have gone to lands far distant
And with strangers made their home
Some upon this world of waters
All their lives are forced to roam
Some are gone from us for ever
Longer here they might not stay
They have sought those fairer regions
Far away, Far away.

(3) There are still some few remaining
Who remind us of the past
But this soothes the anguish only
Nothing in this world can last
Years roll on and pass for ever
What is coming who can say
Ere this closes many may be
Far away, Far away

Far away from home

When I am far away from home, on Afric
distant shore.
I'll think of those I left behind and never
~~more~~ may see more.
No matter where I chance to roam, the burd
of my lay.
Shall be, may heaven guard my friends
when I am far away.

When I am far away from home, and acro
the troubled main.
I'll pray that He who made us all,
may let us meet again.
Though we may part for many years.
the burden of my lay.
Shall be may heaven guard my friends,
when I am far away.

When I am far away from home, new
friendships may arise. —
But oh! my heart sincerely feels —
affection never dies. —
So let me fervently declare, in this my
simple lay.

May heaven protect and guard my friends, when I am far away.

My native home

Though I beneath a southern sky,
A kindly welcome meet,
Of northern snow clad mountains high,
Support my weary feet.
Dear native land still thoughts of thee,
Pursue where'er I roam.
For oh! I long I long to see, my dear
my native home.
My home, my native home,
My dear my native home,
For Oh! I long I long to see,
My dear my native home.

—

Could I my roving steps retrace,
To thee far distant shore,
And rest me in my native place,
I never should wander more.
Not all the wealth this world could boast
Should tempt me then to roam.
For all this heart now values most
Surrounds my native home.
My home &c.

The rain upon the roof
When the humid shadows gather
Over all the starry spheres
And a melancholy darkness
Gently weeps in rainy tears
'Tis a joy to press the pillow
Of a cottage chamber bed
And to listen to the patter
Of the soft rain overhead

(2) Every tingle on the shingle
Has an echo in the heart
And a thousand lively fancies
Into busy being start
And a thousand recollections
Weave their bright hues into woof
As I listen to the patter
Of the soft rain on the roof.

(3) There in fancy comes my mother
As she used to years by-gone
To survey the infant sleepers
E'er she left them till the dawn
I can see her bending o'er me
As I listen to the strain
Which is played upon the shingles
By the patter of the rain.

(4) Then my little seraph sister
With her rings of waving hair
And her bright-eyed cherub brother
A serene angelic pair
Glide around my wakeful pillow
With their praise or mild reproof
As I listen to the murmur
Of the soft rain on the roof.

(5) There is nought in arts bravouras
That can work with such a spell
In the spirits pure deep fountain
Whence the holy passions swell
As that melody of nature
That subdued and softening strain
Which is played upon the shingles
By the patter of the rain.

Little Sweetheart

Little Sweetheart come and kiss me
Come and whisper soft and low
That your heart will sadly miss me
As I wander to and fro.
Let me feel the tender pressing
Of your ruby lips to mine
With your dimpled hand caressing
And your snowy arms entwined.

Chorus

Little Sweetheart come and kiss me,
Come and whisper soft and low;
That your heart will sadly miss me
as I wander to and fro.

Little Sweetheart come and kiss me,
We may never meet again,
We may never roam together,
Down the rustic shady lane.
Future years may bring us sorrows,
That our hearts but little know,
But of care we should not borrow,
Come and kiss me ere I go

Chorus

The good time coming

There's a good time coming, boys,
A good time coming:
We may not live to see the day,
But earth shall glisten in the ray
Of the good time coming.
Cannon balls may aid the truth,
But thought's a weapon stronger,
We'll win our battles by its aid;
Wait a little longer

There's a good time coming, boys,
A good time coming
The pen shall supersede the sword,
And right, not might, shall be the lord,
In the good time coming.
Worth, not birth shall rule mankind,
And be acknowledged stronger;
The proper impulse has been given;—
Wait a little longer.

There's a good time coming, boys,
A good time coming;
War in all men's eyes shall be
A monster of iniquity,
In the good time coming.
Nations shall not quarrel then
To prove which is the stronger,
Nor slaughter men for glory's sake;—
Wait a little longer.

There's a good time coming, boys,
A good time coming;
Hateful rivalries of creed
Shall not make their martyrs bleed,
In the good time coming.
Religion shall be shorn of pride,
And flourish all the stronger;
And charity shall trim her lamp; —
Wait a little longer.

There's a good time coming, boys,
A good time coming:
And a poor man's family
Shall not be in misery,
In the good time coming.
Every child shall be a help
To make his right arm stronger
The happier he the more he has
Wait a little longer

There's a good time coming, boys,
A good time coming;
Little children shall not toil,
Under or above the soil,
In the good time coming.

But shall play in healthful fields,
Till limbs and mind grow stronger
And every one shall read and write;-
Wait a little longer.

There's a good time coming, boys,
A good time coming:
They shall pledge eternal hate,
'Gainst all that can intoxicate,
In the good time coming.
They shall use and not abuse,
And make all virtue stronger;
The reformation has begun
Wait a little longer;-

There's a good time coming, boys,
A good time coming:
Let us aid it all we can,
Every woman, every man,
The good time coming.
Smallest helps, if rightly given
Make the impulse stronger
'Twill be strong enough one day;
Wait a little longer

July 9th 1879

I never wished, in face or dress,
That you should seem a saint, love;
And yet, ah yet! I must confess,
I wish you would not paint, love.

I gave you once a lover's vow;
You'll think me quite absurd, love;
But I'd rather wed your picture now,
I would upon my word, love.

For when "my life! my love!" I cry,
A frown I always see, love;
The picture with its constant eye,
Would always smile on me, love.

A lack of brains, you both would show,
And both a made up check, love.
But then you have a tongue, you know
A picture could not speak, love.

Bill Jones, or the three Ravens.

"Now well-a-day!" the sailor said
"Some danger must impend!
Three ravens sit in yonder glade,
And harm will happen, I'm sore afraid,
Ere we reach our journey's end."

"And what have the ravens with us to do?
Does their sight then bode us evil?"
"Why, to find one raven is lucky, it's true;
But its certain misfortune to light upon two
And meeting with three is the devil!

"I've known full three score years go by
And only twice before
I've seen three raven near me fly;
And twice good cause to wish had I,
That I ne-er might see them more.

"The first time I was wrecked at sea;
The second time, by fire
I lost my wife and children three,
The selfsame night; and woe is me.
That I did not then expire!

"Still do I hear their screams for aid,
Which to give was past man's power;
I saw in earth their coffins laid—
Well, my heart of marble must be made,
Since it did not break that hour!"

"Poor soul you tale of many woes
Brings tears into my eyes:
But think you then such ills arose,
Because you saw your fancied foes,
Three ravens, near you rise?

"No doubt, since this fantastic fear
Has thus possess'd your head,
You firmly believe that ghosts appear,
And that dead men rise from the bloodstained bier
To haunt the murderer's bed?"

"Believe it master? well I may!
Now mark what I'll relate;
For gospel true are the words I say,
When I swear, that during three weeks and a day
A ghost was my own shipmate!

"My cash ran low – no beef no flip,
And the times were hard to live;
So I even resolved to make a trip
For slaves on board a Guinea ship,
Which crime may God forgive!

"Oh! it's a sad thing to hear
The negroes scream and groan,
And curse the billows, which bears them near
To the tyrant white man's land of fear,
And far, far away from their own

July 17th

"But soon the sailor found his part
Scarce better than the slave's;
For our Captain had a tigers ~~part~~ heart (art
And he plagued his crew with such barbaric
We all wished us in our graves.

"We scarce was two days sail from port,
Ere many a back was flayed;
He flogged us oft in wanton sport;
His heart was stone, not flesh – in short,
He was fit for such a trade.

"Though each in turn was treated ill,
'Mongst all the crew alone

Bill Jones opposed our tyrant's will:
For Bill was cross, and old, and still
He'd give him back his own.

"And many a brutal harsh command
Old Bill had grumbled at,
Bill once was ordered a sail to hand,
When he was so weak he could scarcely stand,
But the Captain scoffed at that.

"For a lazy old brute poor Bill he abused,
And he forced him aloft to go;
But their duty to do his limbs refused,
And at length from the rope his hands he loosed,
And he fell on the deck below.

"Towards him straight the Captain flew,
Crying 'dog, dost serve me so?"
And with devilish spite his sword he drew,
And he ran Bill Jones quite through and through,
And the blow was a mortal blow.

"At the point of death poor Bill now lies,
And stains the deck with gore;
And fixing his own on his murderers eyes,
'Captain alive or dead,' he cries,
'I'll never leave you more!'

"You won't' says the Captain, 'time will show
If you keep your word or not;
For now in the negro kettle below,
Old dog your scoundrell limbs I'll throw,
And I'll see what fat you've got!

"So he caused the cook to make water hot,
And the corpse both flesh and bones,
[To see what fat Bill Jones had got,]
The Captain boiled in the negro pot;
But there was'nt much fat in Jones.

" If well his word the Captain kept,
Bill Jones kept his as well;
For just at midnight all who slept,
With one consent from their hammocks leapt,
Roused by a fearful yell.

" Never was heard a more terrible sound
Fast to the deck we hid;
And there by the moonbeam's light we found
The murdered man in spite of his wound,
Sitting close by the steersman's side.

" And from that hour, among the rest,
Bill served nor left us more;

With bloody trousers, bloody vest,
And bloody shirt and bloody breast,
Still he stood our eyes before.

"And he'd clean the deck or fill the pail,
Or he'd work with right goodwill
To stop a leak, or drive a nail;
But whenever the business was handing a sail
Then 'specially ready was Bill.

"And to share in all things with the crew
Did the spectre never miss;
And when to the cook for his portion due
Each sailor went, Bill Jones went too,
And tendered his platter for his.

July 18th "His face looked pale; his limbs seemed weak;
His footsteps seemed so still!
That to hear them sound you'd vainly seek,
And to none of the crew did Bill e'er speak,
And none of us spoke to Bill.

But when three weeks had crept away,
Just as you now have heard,
The Captain came on deck one day
And quoth he my 'my lads I've something to say
Bill Jones is as good as his word.

'He never leaves me day or night!
He haunts me, haunts me still!
By the midnight lamp I see the spirit,
And when at morn the sky grows light,
The first sunbeam shows me Bill.

'At meals his pale lips speak the grace,
His cold hand gives the wine;
At every hour, in every place,
To which ever side I turn my face,
Bill's eyes are fixed on mine!

'Now, lads, my resolution's made;
One means will set me free,
And Bill's pursuit for ever evade —
He comes, he comes! then away!' he said,
And plunged into the sea.

"None moved a limb to save the wretch —
All stood with wondering eyes;
Each clasped his hands, a groan each gave
When lo! on a sudden above the wave
once more did the captain rise.

Fixed and fearful was his eye,
And pale as a corpse his brow;

And we saw him clap his hands on high,
And we heard him scream with a terrible cry,
'Oh dear! Bill's with me now!'

"Then down he sank through the foaming flood,
To Hell that worst of havens! —
Now heaven preserve you, master good,
From perilous rage and from innocent blood,
And from meeting with three ravens!"

The Stud

Or the founding of Bolton Priory.
A celebrated Abbey, now in ruins, romantically situated on the banks of the Wharf in Yorkshire.

Young Romilly through Barden woods
Is ranging high and low,
And holds a greyhound in a leash,
To let slip on buck or doe.

The pair have reached that fearful chasm,
How tempting to bestride!
For lordly Wharf is there pent in
With rocks on either side.

This striding place is called 'the Stud':
A name which it took of yore;
A thousand years hath it borne that name
And it shall a thousand more.

And hither is young Romilly come;
And what may now forbid
That he, perhaps for the hundredth time,
Shall bound across the Strid?

He springs in glee – for what cared he,
That the river was strong and the rocks were (steep?)
But the greyhound in the leash held back,
And checked him in his leap!

The boy is in the arms of Wharf!
And strangled with a merciless force –
For never more was young Romilly seen
Till he rose a lifeless corse!

Long, long in darkness his mother sat,
And her first words were, 'let there be
In Bolton, on the field of Wharf,
a stately Priory!'

The stately priory was reared,
And Wharf, as he moved along,
To matins joined a mournful voice,
Nor failed at evensong.

and the lady prayed in heaviness
That looked not for relief;
But slowly did her succour come,
And patience to her grief.

Oh! there is never sorrow of heart
That shall lack a timely end,
If but to God we turn, and ask
Of him to be our friend.

Beth Gelert

The Spearman heard the bugle sound,
And gaily smiled the morn,
And many a brach,† and many a hound
Attend Llewellyn's horn.

And still he blew a louder blast,
And gave a louder cheer;
'Come, Gelert, why art thou the last
Llewellyn's horn to hear

'Where does my faithful Gelert roam?
The flower of all his race;
So true, so brave; a lamb at home,
A lion in the chase!

† Brach – a female hound

'Twas only at Llewellyn's board
The faithful Gelert fed;
He watched, he served, he feathered his lord,
And sentinelled his bed.

In sooth he was a peerless hound,
The gift of royal John:
But now no Gelert could be found,
And all the chase rode on.

And now, as over rock and dells
The huntsman's cheerings rise,
All Snowdon's craggy chaos yells
With many mingled cries.

That day Llewellyn little loved
The chase of hart or hare,
And scant and small the booty proved,
For Gelert was not there.

Unpleased, Llewellyn homeward hied,
When, near the portal seat,
His truant Gelert he espied,
Bounding his lord to greet.

But when he gained his castle door,
Aghast the chieftain stood;
The hound was smeared with drops of gore,
His lips and fangs ran blood!

Llewellyn gazed with wild surprise.
Unused such looks to meet
His favourite checked his joyful guise,
And crouched and licked his feet.

Onward in haste Llewellyn past,
And on went Gelert too;
And still where'er his eyes he cast
Fresh blood-drops shocked his view!

O'erturned his infant's bed he found,
The blood-stained covert rent;
And all around the walls and ground
With recent blood besprent.

He called his child, no voice replied —
He searched with terror wild;
Blood! blood he found on every side,
But nowhere found his child!

'Bloodhound! by the my child is devoured!'
The frantic father cried;
And to the hilt—his vengeful sword
He plunged in Gelert's side.

His suppliant look as prone he fell,
No pity could impart;
Yet mournfully his dying yell
Sunk in Llewellyn's heart.

Aroused by Gelert's dying yell
Some slumberer wakened nigh—
What words the parent's joy can tell,
To hear his infant cry!

Concealed amidst a mingled heap
His hurried search had missed,
All glowing from his rosy sleep,
His cherub boy he kissed!

Nor wound had he, nor harm, nor dread;
But the same couch beneath,
Lay a gaunt wolf, all torn and dead,—
Tremendous still in death!

Ah! what was then Llewellyn's pain,
For now the truth was clear.
The gallant hound the wolf had slain,
And saved Llewellyn's heir.

Vain, vain was all Llewellyn's woe;
'Best of thy kind adieu!
The frantic deed which laid thee low,
This heart shall ever rue!'

And now a gallant tomb they raise,
With costly sculptures decked;
And marbles, storied with his praise,
Poor Gelert's bones protect.

Here never could the Spearman pass,
Or forester, unmoved;
Here oft the tear besprinkled grass
Llewellyn's sorrow proved.

And here he hung his horn and spear,
And oft, as evening fell,
In fancy's piercing sounds would hear
Poor Gelert's dying yell!

Advice to young women.

Young women! don't be fond of killing,
Too well I know your hearts unwilling
To hide beneath the veil a charm,
Too pleased a sparkling eye to roll,
And with a neck to thrill the soul
Of every swain with love's alarms:
Yet, yet, if prudence be not near,
Its snow may melt into a tear.

The dimple smile and pouting lip,
Where little cupids nectar sip,
Are very pretty lures I own;
But oh! if prudence be not nigh,
Those lips where all the cupids lie
May give a passage to a groan.

A rose, in all the pride of bloom,
Flinging around her rich perfume;
Her form to public notice pushing,
Amid the summer's golden glow,
Peep'd on a strawberry below,
Beneath a leaf in secret blushing.

'Miss Strawberry,' exclaimed the rose,
'What's beauty that no mortal knows?
What is a charm if never seen?
You really are a pretty creature:
Then wherefore hide each blooming feature?
Come up and show your modest mien.'

'Miss Rose,' the strawberry replied,
'I never did possess a pride
That wished to dash the public eye;
Indeed, I own that I'm afraid;
I think there's safety in the shade;
Ambition causes many a sigh.'

'So simple child,' the Rose reprimed;
'See how I wanton in the wind;
I feel no danger's dread alarms;
And then observe the God of day,
How amorous with his golden ray
To pay his visits to my charms!'
No sooner said, but with a scream
She started from her favourite theme.
A Clown had on her fix'd his pat!
In vain she screeched - Hob did but smile;
Rubbed with her leaves his nose awhile,
Then bluntly stuck her in his hat.
